Partner Offer
Date of Submission: 03.02.2026

We are… ☒ **offering ourselves as partners** ☒ **looking for a partner to join our consortium**

Horizon Europe Call Topic
(Title or topic ID)

HORIZON-CL4-2026-05-DIGITAL-EMERGING-02   HORIZON-CL4-2026-04-DATA-02

Description of your expertise / the expertise you are looking for
(up to 1000 characters)

The Problem: Consortia struggle to adopt Generative AI because sensitive data cannot legally leave partner premises, and public cloud usage triggers GDPR and EU AI Act risks.

The Solution: 8peaks provides a Sovereign AI Infrastructure that allows you to deploy AI agents entirely on-premise or at the Edge. We bridge the gap between advanced research and strict EU compliance.

Our Specific Expertise:

- **Sovereign Infrastructure:** A secure, offline environment to process sensitive data entirely on-premise.
- **Automated Compliance:** Solves "EU AI Act" obligations by automatically logging decisions and redacting PII for auditability.
- **Edge Continuum:** Enables "Zero-Latency" AI on local devices that works even without internet.
- **Agentic AutoML:** We provide an "Autonomous Data Team" (3-Agent Trinity) to clean data and train models without manual coding.
- **Low-Code Orchestration:** A visual workbench for non-coders to validate agent workflows in days.

Call to Action: We are open to an initial alignment call or live sandbox demo to assess fit with your work packages.

Keywords describing your expertise / the expertise you are looking for
(up to 10 key words)

Sovereign AI, TRL 7, On-Premise LLM, EU AI Act Art. 12, Zero Trust, Agentic AutoML, Green AI, Industrial AI, Edge Computing, ISO 27001.

Organisation information

Name of your organisation: **8peaks**

Type of organisation:	
☐ Industry (Large)	☐ Research Institute
☒ Industry (SME)	☐ Public Body
☐ University or College	☐ Other, please specify: Click here to enter text.

Previous participation in an EU project?
☒ No
☐ Yes, please specify: Click here to enter text.

Website: https://8peaks.io

Description of your organisation or the consortium for which you need a partner:
8peaks (Antwerp, BE) solves the "Data Sovereignty" problem for EU research projects. For this consortium, we act as the technical infrastructure partner. We provide a secure, ready-to-use "Sandbox" where partners can deploy and test Generative AI models without any data leaving the secure network.

EU Project Capability: Although this would be our first Horizon Europe project, we mitigate this risk by leveraging a leadership team with 20+ years EU and global experience in delivering enterprise software to regulated industries and have assigned a dedicated project manager to ensure strict administrative and financial compliance.
