Hlavné oblasti podpory v klastri Zdravie

**zlepšovanie diagnostiky
a liečby ochorení**

prevencia ochorení

personalizácia zdravotnej starostlivosti

**vývoj nových technológií a využívanie AI
v biomedicíne a zdravotníctve**

**vplyv životného
prostredia na zdravie**

interdisciplinárny charakter projektov

**digitálna transformácia
zdravotnej starostlivosti**

Pracovný program

- základný dokument definujúci výzvy, témy, harmonogram, osobitné podmienky
- **WP 2026 – 2027** zverejnený v decembri 2025
- **2026 – 18 tém s alokáciou 471,6 mil. €**
- termín otvorenia výziev 2026 na EU Funding & Tenders Portal: **10. 2. 2026**

Pracovný program

Destinácia 1

Zostať zdravý v rýchlo meniacej sa spoločnosti

Destinácia 2

**Život a práca v zdraví
prospešnom prostredí**

Destinácia 3

**Boj proti chorobám a znižovanie
zaťaženia chorobami**

Destinácia 4

**Zabezpečenie prístupu k inovatívnej,
udržateľnej a vysoko kvalitnej
zdravotnej starostlivosti**

Destinácia 5

**Plné využitie potenciálu nových
nástrojov, technológií a digitálnych
riešení pre zdravú spoločnosť**

Destinácia 6

**Zachovanie inovatívneho,
udržateľného a globálne
konkurencieschopného
zdravotníckeho priemyslu**

Typy projektov vo výzvach 2026

Research and innovation actions (RIA)

- ✓ základný a aplikovaný výskum, vývoj alebo vylepšovanie technológií, produktov, procesov
- ✓ 100 % oprávnených nákladov

Coordination and support actions (CSA)

- ✓ koordinačné a podporné aktivity, networking, šírenie a využitie výskumných výsledkov
- ✓ 100 % oprávnených nákladov

Innovation actions (IA)

- ✓ uplatnenie výsledkov výskumu v praxi, tvorba prototypu výrobkov, ich testovanie, uvedenie na trh
- ✓ 70 % oprávnených nákladov (100 % pre neziskové subjekty)

Public procurement of innovative solutions actions (PPI)

- ✓ príprava a realizácia jedného spoločného alebo viacerých koordinovaných VO zo strany skupiny obstarávateľov v konzorciu

Application Forms
Proposal ID XXXXXXXXXX Acronym XXXXXXXX Participant short name: XXXX

Researchers involved in the proposal¹

Include only the researchers involved in the proposal. (see below definition of "researcher"). You do not need to include in the table the identity of other persons involved in the proposal who are not researchers.

Researchers are professionals engaged in the conception or creation of new knowledge. They conduct research and improve or develop concepts, theories, models, techniques instrumentation, software or operational methods. (Frascati Manual 2015)

Include also person in charge of the proposal if a researcher

Title	First Name	Last Name	Gender	Nationality	E-mail	Career stage ¹	Role of researcher (in the project)	Reference identifier	Type of identifier
			(Woman)			(Category A – Top grade researcher)	(Leading)		(ORCID)
			(Man)			(Category B – Senior researcher)	(Team member)		(Researcher ID)
			(Non-binary)			(Category C – Recognised researcher)			(Other - specify)
						(Category D – First stage researcher)			

¹ Career stages as defined in Frascati 2015 manual:

Category A – Top grade researcher: the single highest grade/post at which research is normally conducted. Example: "Full professor" or "Director of research".

Category B – Senior researcher: Researchers working in positions not as senior as top position but more senior than newly qualified doctoral graduates (ISCED level 8). Examples: "associate professor" or "senior researcher" or "principal investigator".

Category C – Recognised researcher: the first grade/post into which a newly qualified doctoral graduate would normally be recruited. Examples: "assistant professor", "investigator" or "post-doctoral fellow".

Category D – First stage researcher: Either doctoral students at the ISCED level 8 who are engaged as researchers, or researchers working in posts that do not normally require a doctorate degree. Examples: "PhD students" or "junior researchers" (without a PhD).

PART B

Excellence

- Objectives and ambition
- Methodology

Impact

- Project's pathways towards impact
- Measures to maximise impact - dissemination, exploitation and communication

Implementation

- Work plan and resources
- Capacity of participants and consortium as a whole

EU Funding & Tenders Portal

The screenshot shows the EU Funding & Tenders Portal interface. A large purple arrow points to the 'Funding' menu item in the top navigation bar. A purple oval highlights the 'All filters' button in the top right corner. Another purple oval highlights the 'All filters' button in the left sidebar. A third purple oval highlights the 'Horizon Europe (HORIZON)' filter in the 'PROGRAMME' section of the right sidebar. A fourth purple oval highlights the 'Health' sub-filter under 'Global Challenges and European Industrial Competitiveness' in the 'PROGRAMME PART' section of the right sidebar. The main content area displays 'Calls for proposals' with a list of results, including 'Towards Artificial General Intelligence (AGI) for healthcare' and 'Sustainable, beautiful and healthy construction and renovation sites'.

EU Funding & Tenders Portal

Home > Funding > Calls for proposals

Calls for proposals

Calls for proposals are funding opportunities issued by the European Union institutions, agencies and bodies. These are direct financial contributions, known as grants, that are awarded to third parties (e.g., research organisations, public entities, non-governmental organisations, and private companies) to engage in activities that serve EU policies.

Pracovní program 2026 – 2027

Horizon Europe - Work Programme 2026-2027
Health

relevant SSH expertise, in order to produce meaningful and significant effects enhancing the societal impact of the related research activities.

Participation of start-ups, micro, small and medium-sized enterprises (SMEs)¹⁶⁰ is also encouraged to strengthen their scientific and technological foundations and enhance their innovation potential.

Applicants should provide details of their clinical studies¹⁶¹ in the dedicated annex using the template provided in the submission system. As proposals under this topic are expected to include clinical studies, the use of the template is mandatory.

HORIZON-HLTH-2026-01-DISEASE-04: Development of novel vaccines for viral pathogens with epidemic potential

Call: Cluster 1 – Health (Single stage - 2026)

Specific conditions

<i>Expected EU contribution per project</i>	The Commission estimates that an EU contribution of between EUR 9.00 and 11.00 million would allow these outcomes to be addressed appropriately. Nonetheless, this does not preclude submission and selection of a proposal requesting different amounts.
<i>Indicative budget</i>	The total indicative budget for the topic is EUR 44.20 million.
<i>Type of Action</i>	Research and Innovation Actions
<i>Eligibility conditions</i>	The conditions are described in General Annex B. The following exceptions apply: In recognition of the opening of the US National Institutes of Health's programmes to European researchers, any legal entity established in the United States of America is eligible to receive Union funding. If projects use satellite-based earth observation, positioning, navigation and/or related timing data and services, beneficiaries must make use of Copernicus and/or Galileo/EGNOS (other data and services may additionally be used). The Joint Research Centre (JRC) may participate as member of the consortium selected for funding as a beneficiary with zero funding, or as an associated partner. The JRC will not participate in the preparation and submission of the proposal - see General Annex B.
<i>Award criteria</i>	The criteria are described in General Annex D. The following exceptions apply:

¹⁶⁰ <https://eur-lex.europa.eu/legal-content/EN/TXT/PDF/?uri=CELEX:32003H0361>

¹⁶¹ Please note that the definition of clinical studies (see introduction to this Work Programme part) is broad and it is recommended that you review it thoroughly before submitting your application.

Horizon Europe - Work Programme 2026-2027
Health

	The thresholds for each criterion will be 4 (Excellence), 4 (Impact) and 4 (Implementation). The cumulative threshold will be 12.
<i>Procedure</i>	The procedure is described in General Annex F. The following exceptions apply: To ensure a balanced project portfolio covering the viruses targeted in this topic¹⁶², grants will be awarded (within available budget) to proposals not only in order of ranking but at least also to those proposals that are the highest ranked within different viruses targeted, provided that the proposals attain all thresholds.
<i>Legal and financial set up of the Grant Agreements</i>	The rules are described in General Annex G. The following exceptions apply: The granting authority may, up to 4 years after the end of the action, object to a transfer of ownership or to the exclusive licensing of results, as set out in the specific provision of Annex 5.

Expected Outcome: This topic aims at supporting activities that are enabling or contributing to one or several expected impacts of destination "Tackling diseases and reducing disease burden". To that end, proposals under this topic should aim to deliver results that are directed at, tailored towards and contributing to all the following expected outcomes:

- The scientific and clinical communities have a better understanding of and access to experimental vaccines for the prevention and treatment of emerging or re-emerging viral infections, as well as for further clinical investigation, including better understanding of biological sex and social determinants that influence immune response, vaccine efficacy, safety, and uptake.
- Candidate vaccines are available for emerging and re-emerging viral infections, increasing therapeutic options for clinical deployment in case of an epidemic or pandemic.

Scope: Infectious diseases remain a major threat to health and health security in the EU and globally. Viral disease emergence is already being accelerated by climate change, and thus a proactive approach to the development of vaccine-based antiviral prophylactics and therapeutics in preparedness for future infectious disease outbreaks is needed. The availability of vaccines that can be adjusted to variants would provide a critical preparedness measure against future health threats, due to infectious disease epidemics or pandemics.

This topic contributes to strengthening the Research and Innovation ecosystem within the EU and supports the implementation of the European Medical Countermeasures Strategy¹⁶³.

¹⁶² Virus i to viii, as given in the scope of this topic.

¹⁶³ https://health.ec.europa.eu/health-emergency-preparedness-and-response-hera/preparedness/medical-countermeasures-strategy_en

Diagnosis and treatment

Projects and main initiative 'Network of Comprehensive Cancer Infrastructures'.

Objective 4

Quality of life for patients, survivors and & their families

Projects and main initiative 'European Cancer Patient Digital Centre'.

Pracovný program pre misie 2026 – 2027

Misia Rakovina – témy výzvy 2026

Call – Supporting the implementation of the Cancer Mission 2026

TOPICS	Typ projektu	Rozpočet na tému	Rozpočet na projekt
<u>HORIZON-MISS-2026-02-CANCER-01</u>: Virtual Human Twin (VHT) Models for Cancer Research	RIA	35 mil. €	8 – 9 mil. €
<u>HORIZON-MISS-2026-02-CANCER-02</u>: Microbiome for early cancer prediction before the onset of disease	RIA	15 mil. €	15 mil. €
<u>HORIZON-MISS-2026-02-CANCER-03</u>: Pragmatic clinical trials to optimise immunotherapeutic interventions for patients with refractory cancers	RIA	22,19 mil. €	7 – 8 mil. €
<u>HORIZON-MISS-2026-02-CANCER-04</u>: Earlier and more precise palliative care	RIA	15 mil. €	5 mil. €
<u>HORIZON-MISS-2026-02-CANCER-05</u>: Boosting mental health of young cancer survivors through the European Cancer Patient Digital Centre (ECPDC)	IA	7 mil. €	7 mil. €
<u>HORIZON-MISS-2026-02-CANCER-06</u>: Development of a research capacity building programme on cancer with and for Ukraine	CSA	5 mil. €	5 mil. €
<u>HORIZON-MISS-2026-02-CANCER-07</u>: Improve the Quality of Life of older cancer patients	RIA	25 mil. €	5 – 6 mil. €

Misia Rakovina – témy výzvy 2027

TOPICS	Typ projektu	Rozpočet na tému	Rozpočet na projekt
HORIZON-MISS-2027-02-CANCER-01: Leveraging functional genomics to reveal novel targets for cancer treatment	RIA	33,32 mil. €	7 – 8 mil. €
HORIZON-MISS-2027-02-CANCER-02: Clinical research by Comprehensive Cancer Infrastructures for the benefit of patients with common cancers	IA	20 mil. €	7 – 10 mil. €
HORIZON-MISS-2027-02-CANCER-03: Phase 1 including first-in-human clinical trials to test biomarker-guided medicines or multi-modal treatment interventions for patients with rare or very rare cancers or cancer subtypes	RIA	25 mil. €	7 – 9 mil. €
HORIZON-MISS-2027-02-CANCER-04: Improving equitable health outcomes and added value for and with cancer patients through health-economics research, health systems research and outcomes research	RIA	10 mil. €	5 – 7 mil. €
HORIZON-MISS-2027-02-CANCER-05: Pre-commercial procurement of affordable solutions for healthcare systems in the areas of cancer technologies, cancer medical devices, or cancer medicines	PCP	26 mil. €	8 – 10 mil. €
HORIZON-MISS-2027-02-CANCER-06: Support a Young Cancer Survivor Quality of Life (QoL) research programme by cancer charities and funding agencies	CSA	3 mil. €	3 mil. €

Uzávierka výziev: 21. 9. 2027

Špecifiká projektov podporených v misii Rakovina

- synergie s podobnými iniciatívami a projektmi (project clusters)
- zapojenie patientskych organizácií, verejných inštitúcií, občianskych združení
- zapojenie odborníkov zo spoločenských a humanitných vied (SSH) – interdisciplinárny charakter projektov
- prahová hodnota (threshold) pri hodnotení zvýšená na 12 bodov
- inštitúcie z USA bez nároku na EÚ financovanie

Misia EÚ – Rakovina: účasť SK v podporených projektoch

Názov a akronym projektu	SK organizácia
A Coordination and Support Action to prepare UNCAN.eu platform 4.UNCAN.eu	Biomedicínske centrum SAV
Establishing of Cancer Mission Hubs: Networks and Synergies ECHoS	Národný onkologický ústav Nadácia Výskum Rakoviny
COMPREHENSIVE CANCER INFRASTRUCTURES 4 EUROPE CCI4EU	Biomedicínske centrum SAV
Occupational health surveillance in the implementation of prevention of infection-related cancer CPW (Cancer Prevention at Work)	RUVZ Banská Bystrica FN s poliklinikou F. D. Roosevelta BB Železiarne Podbrezová, a. s.
Validated non-invasive liquid biopsy tests for cancer PREDiction in LYNCH Syndrome Predi-LYNCH*	Geneton, s.r.o.
Co-creation and implementation of an intervention to improve the understanding of TesticulaR cANcer late effects and unmet Supportive CarENeedDs of AYA survivors using eXtended Reality TRANSCEND-XR*	Univerzita Komenského v Bratislave

Partnerstvá EÚ

- European Partnership for Chemicals Risk Assessment (PARC)
- ERA for Health Research
- European Partnership on Health and Care Systems Transformation (THCS)
- European Partnership for Personalised Medicine

- European Partnership on Rare Diseases
- European Partnership on One Health/AMR
- European Partnership on Pandemic Preparedness
- European Partnership for Brain Health

- Innovative Health Initiative (IHI)
- European Partnership for EU-Africa Global Health (EDCTP 3)

Aktuálne výzvy v spolufinancovaných partnerstvách

- **HORIZON-EPPerMed-JTC-2026**

CARMEN2026 Personalised Medicine for CARdiovascular, MEtabolic, and kidNey diseases

Uzávierka: **10. 02. 2026**

Predbežný rozpočet CVTI SR: **600 000 EUR**

- **HORIZON-ERDERA-JTC-2026**

Resolving unsolved cases in rare genetic and non-genetic diseases

Uzávierka: **12. 02. 2026**

Predbežný rozpočet CVTI SR: **600 000 EUR**

- **HORIZON-BrainHealth-JTC1-2026**

**Biological, social and environmental factors that impact the trajectory of brain health across the lifespan
– in the field of neurological, mental and sensory disorders**

Uzávierka: **10. 03. 2026**

Predbežný rozpočet CVTI SR: **600 000 EUR**

- **HORIZON-BrainHealth-JTC2-2026**

**Biological, social and environmental factors that impact the trajectory of brain health across the lifespan
– in the field of neurodegeneration**

Uzávierka: **10. 03. 2026**

Predbežný rozpočet CVTI SR: **600 000 EUR**

Innovative Health Initiative (IHI)

Call 12

- Topic 1 (SO1): Boosting innovation for a **better understanding of the determinants of health**
- Topic 2 (SO2): Boosting innovation through better **integration of fragmented health R&I efforts**
- Topic 3 (SO3): Boosting innovation for **peopled centred integrated healthcare solutions**
- Topic 4 (SO4): Boosting innovation through **exploitation of digitalisation and data exchange in healthcare**
- Topic 5 (SO5): Boosting innovation for **better assessment of the added value of innovative integrated healthcare solutions**

Hop on Facility

Nástroj HE umožňujúci začleniť sa do projektu typu RIA schváleného v rámci 2. piliera a EIC Pathfinder (zoznam aktualizovaný priebežne)

Uzávierka výzvy: 24. 9. 2026
[Bližšie informácie](#)

Základné podmienky:

- existujúce konzorcium nemá iného PP z widening krajiny
- konzorcium už má podpísanú grantovú dohodu
- zrejma pridaná hodnota nového partnera pre implementáciu projektu
- projektový návrh predkladá koordinátor, doplnenie pôvodnej žiadosti o prínos a úlohy nového člena – max. 8 str.
- rozpočet nového partnera 0,2 – 0,6 mil. € + 10 % navýšenie pre koordinátora projektu
