

HORIZON 2020

Key achievements and impacts- Slovakia

January 2020

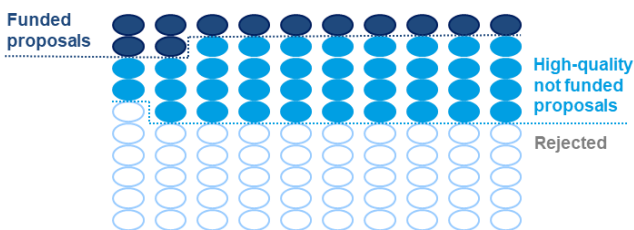

Horizon 2020 is the EU Framework Programme for Research and Innovation (2014 – 2020) with a dedicated budget of EUR 77 billion over seven years. It is a unique programme in the World designed to drive economic growth and create jobs in Europe by investing in excellent science, industrial leadership and societal challenges.

5 YEARS OF IMPLEMENTING HORIZON 2020

€45b	31%	59%	25%	31 525	24 574
of EU investment for Research & Innovation	of investment for climate Research & Innovation	of investment to higher education institutions & research organisations, 28% to private-for profit companies	of investment to SMEs (target: 20%) involved in tackling Societal Challenges and Leadership in Enabling & Industrial Technologies	unique participating entities, incl. 65% of newcomers and 14268 unique SMEs	grants signed from 204 750 proposals, involving 708 901 applications

The programme is **ATTRACTIVE** but less than 1 in 3 high-quality proposals are funded: additional €116 bn would have been needed to fund them all

200,000 proposals (twice as much per year compared to the predecessor programme FP7)

12% of them received funding

83% of projects declare they **would not have gone ahead** without EU funding

Horizon 2020 investments are **EFFECTIVE** they generate a **GDP gain estimated between EUR 400 to EUR 600 billion by 2030** (EUR 1 → EUR 6 to 8.5)

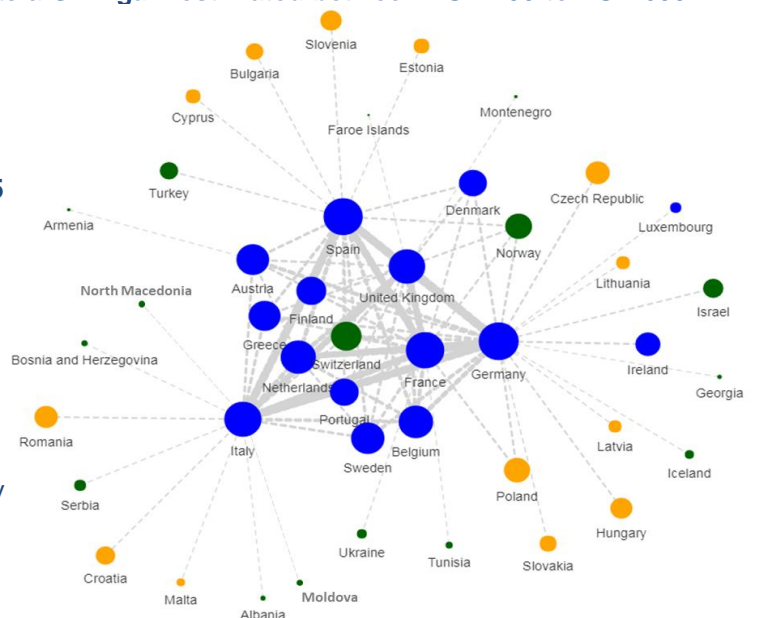

Creating networks and integrating research and innovation efforts **across countries** (154 countries involved), **sectors and disciplines: 1.5 million one-to-one collaborations in projects**

Generating scientific breakthroughs with 62,000 peer-reviewed publications, cited more than twice the world average, 3/5 based on private sector / academia collaboration

Generating innovation, including more than 1,600 patent applications and **benefits** on society expected from most projects (e.g Ebola research, IPCC panel, anti-microbial resistance)

SLOVAKIA IN HORIZON 2020

Horizon 2020 is well aligned with Slovak research and innovation priorities and helps Slovakia progress from being a moderate innovator to becoming a strong innovator in Europe.
