Horizon Europe
Horizon Europe is the ambitious EU research & innovation framework programme for 2021-2027 with a budget of €95.5 billion.
Its overarching goals are:
to strengthen the EU's scientific and technological bases and the European Research Area (ERA);
to boost Europe's innovation capacity, competitiveness and jobs;
to deliver on citizen's priorities and sustain our socio-economic model and values.
with a particular focus on creating impact or the European Green Deal, the digital and sustainability transition and recovery from the coronavirus-crisis.
For more information, please see the Horizon Europe web site.

HORIZON-CL6-2022-GOVERNANCE-01-12: Thematic networks to compile and share knowledge ready for practice

Specific conditions	
Expected EU contribution per project	The Commission estimates that an EU contribution of around EUR 3.00 million would allow these outcomes to be addressed appropriately. Nonetheless, this does not preclude submission and selection of a proposal requesting different amounts.
Indicative budget	The total indicative budget for the topic is EUR 9.00 million.
Type of Action	Coordination and Support Actions
Eligibility conditions	The conditions are described in General Annex B. The following exceptions apply: The following additional eligibility criteria apply: The proposals must use the multi-actor approach. See definition of the multi-actor approach in the introduction to this work programme part.

HORIZON-CL6-2022-GOVERNANCE-01-12: Thematic networks to compile and share knowledge ready for practice

Specific conditions	
Expected EU contribution per project	The Commission estimates that an EU contribution of around EUR 3.00 million would allow these outcomes to be addressed appropriately. Nonetheless, this does not preclude submission and selection of a proposal requesting different amounts.
Indicative budget	The total indicative budget for the topic is EUR 9.00 million.
Type of Action	Coordination and Support Actions
Eligibility conditions	The conditions are described in General Annex B. The following exceptions apply: The following additional eligibility criteria apply: The proposals must use the multi-actor approach. See definition of the multi-actor approach in the introduction to this work programme part.

Expected Outcome: In support of the Green Deal, CAP and Farm to Fork objectives and targets, the successful proposal will focus on knowledge sharing in a language that is easy to understand and is targeted to farmers and foresters. Primary producers have a particular need for impartial and tailored knowledge on the management choices related to the needs, challenges or opportunities they experience. This speeds up innovation and the uptake of results, and is key to improve sustainability. It adds value to the knowledge and cost-effectiveness of innovative practices and techniques in and across primary production sectors, food systems, bioeconomy and biodiversity. This will lead to more informed and engaged stakeholders and users of project results including primary producers and consumers thanks to effective platforms such as Agriculture Knowledge and Innovation Systems (AKIS[503]).

Despite the continued funding of scientific projects, innovative ideas and methods from practice are not captured and spread, and often research findings are not integrated into agricultural and forestry practice. Proposals, acting at EU level to remedy this situation, are essential because national and sectoral AKISs are insufficiently connected and organised to fully meet the challenge of intensifying thematic cooperation between researchers, advisors and farmers/foresters. This exchange of knowledge will foster economically viable and sustainable agriculture and forestry and build trust between the main AKIS actors.

Project results are expected to contribute to the following outcomes:

503 AKIS means the organisation and knowledge flows between persons, organisations and institutions who use and produce knowledge for agriculture and interrelated fields (Agricultural Knowledge and Innovation)

You can suspend the registration process at any time: the data entered can be saved as draft and you can continue your registration later. To return to your registration, please log in and get into My Organisation(s) in the My Area section. Incomplete, draft registrations are automatically deleted after one year.
Additionally, for actions where the SME status is an eligibility criterion (like, e.g. the SME Instrument) you must also carry out the SME self-assessment.
Should your project or tender be successfully evaluated, the registered data will be verified by the Validation Service team

IT Helpdesk

The IT Helpdesk answers your questions about the Funding & Tenders Portal tools and processes.

Europe Direct

Questions about the EU? Europe Direct can help.

Research Enquiry Service

The Research Enquiry Service answers questions about European research, in particular the EU Research Programmes. The same service also deals with inquiries about the validation process of legal entities for all the EU programmes. However, you are requested to contact the Validation Services via the Participant Register first. If you do not have access to the Participant Register, you can submit here your enquiry.

National Contact Points (NCPs) for Horizon Europe

The network of National Contact Points (NCPs) is the main structure to provide guidance, practical information and assistance on participation in Horizon Europe. NCPs are also established in many non-EU and non-associated countries ('third-countries').

NCP Services
PODPORA
In general, the following basic services are available in accordance with the NCP Guiding Principles agreed by all countries:
1. Guidance on choosing relevant Horizon Europe topics and types of action
2. Advice on administrative procedures and contractual issues
3. Training and assistance on proposal writing
4. Distribution of documentation (forms, guidelines, manuals etc.)
5. Assistance in partner search
As the NCPs are national structures, the type and level of services offered may differ from country to country.
What is the NCP network?
NCPs are national structures established and financed by governments of the 27 EU member states and the states associated to the framework programme.
NCPs give personalised support on the spot and in applicants' own languages.
The NCP systems can vary from one country to another from highly centralised to decentralised networks, and a number of very different actors, from ministries to universities, research centres and special agencies to private consulting companies.
